

Gliwice, 23rd of May 2011

Dear Customers,

We have a pleasure to inform you that B2B platform has been successfully launched.

The B2B (Business-to-Business) system is the way of buying products by:

- **creating and following up your orders**
- **monitoring your purchase history**
- **verifying products availability**
- **checking invoices history and actual balance**
- **downloading product specifications, certificates of analysis and MSDS files**

Besides that you have the possibility to:

- **access products catalogue and your price list**
- **ask for a quotation**
- **find out about our special offers**

The advantages of the B2B system are:

- **comfort and convenience to place orders from any place in the world**
- **fast operations by looking through the actual data on-line**
- **saving time and money by shortening the process of fulfillment order**
